

STEPS IN OBTAINING ISTS PERMIT FROM BELTRAMI
COUNTY

1. Site Evaluation*
2. System Design*
3. Permit application through Beltrami County Environmental Service Department (often the installer applies for the permit, check with your installer).
4. Installation of system
5. Final installation inspection of system.*

*Must be done by a licensed MPCA professional.

NOTE: The final installation inspection can not be preformed by the person/company who installed the system.
