

Due to unseasonably warm and dry weather, all Snowmobile & Ski Trail gates will be closed effective March 15, 2024. Although the regular ski and snowmobile season extends through April 1, there is no snow on the ground. At this time, ungroomed and snow-free trails are open for non-motorized uses. No motorized use is allowed at this time on any of the trails.

If a trail is posted “closed”, no activities are allowed on that trail until conditions have improved and the sign has been removed.
