

# Tire Recycling

What happens to tires recycled in Beltrami County?

## Why should we recycle tires?

### Environment

Tires that catch fire are difficult to put out.

### Limited landfill space

Tires do not break down.

### Discarded Tires

Improperly managed tires can provide ideal breeding habitat for mosquitos.

Burning tires release toxic air pollutants and toxic oil.

### Valuable Resources

1 car tire requires 7 gallons of crude oil to produce.

## Where do my tires end up?

Beltrami County sends tires to Savage, MN to Liberty Tire recycling.

In 2019

# 153 tons

of scrap tires in Beltrami County were diverted from the environment and landfills.

### 3 things to help preserve your tires

- 01 Check your tire pressure regularly.
- 02 Rotate your tires.
- 03 Have your wheel alignment checked.
